Roundtable on Sustainable Palm Oil

CGF Palm Oil Sourcing Guidelines:

“The scope of these guidelines applies to palm oil, palm kernel oil and their derivatives used in a company’s products.”

Ahold Delhaize Translation:

All products, including food, home and personal care; all palm oil, palm kernel oil and fractions/derivatives should be RSPO Certified (MB/SG).

Challenges on PKO:

- Lack of availability and (very) high cost of PKO Credits / even higher cost of physical.
- Difficulty in identifying PKO (especially derivatives) in (non-) food products.
- Small volumes means suppliers / retailers don’t buy into certification.

Progress (2015 data):

- First focus was on palm oil in food products: 100% certified
- Current focus is to developing approach for PKO (in non-food)
- Success:
 - All SLES in own brand NL personal care products is MB.
 - Supplier of home care products in process to becoming certified.

How can we make action on PKO more accessible?
